Launch Facility: SLC-4E Payload: Iridium-4

Viewing for Invited Guests:  
Vandenberg Rod & Gun Club

On-Base Viewing:  
35th Street and New Beach Blvd.

## L-1 Weather Forecast

**T-0 Forecast:** High pressure continues to build into the western CONUS in the wake of yesterday's cold frontal passage. The impact will be relatively dry northwesterly flow aloft, light surface winds with the loose pressure gradient and no marine layer clouds. Surface winds will be out of the northwest through north from 320-350 at 8-12 knots for T-0. Temperatures will range from 55-60F at T-0. Upper-level winds will be out of the northwest from 330 at 80 knots between 38,000 to 41,000 feet. And finally, the space weather indices for proton and x-ray flux are currently reading at background levels. The overall POV will be 0% with no areas of concern.
